

Stille imagiQ2

Accessories

Surgical perfection. For life.

imagiQ2 accessory highlights

Extra pan handle
Extra pan handle allows panning the table from different sides

Detachable short side rail
Short 8 in / 20 cm rail system enabling accessory mounting and 360° imaging capabilities.

Translucent fistula arm board
Provides an unobstructed image and is connected directly to the carbon fiber top.

Adjustable procedure headrest
Fully translucent headrest, ensures easy intubation and superior carotid visualization. It fits the free end of the table and is side rail mounted.

imagiQ2 radiation shield
Tailored and easy to fit protection against scattered radiation with lead rubber (0.5 Pb) material.
Not available in the US.

Detachable side rail
One third rail system enabling full table length side rails, accessory mounting and optional 360° imaging capabilities.

Anesthesia screen
Provides a sterile barrier separating the surgical field from the patient's head.

Catheter tray
Provides an extended work space, which is attached directly to the table. Available in three lengths.

Adjustable arm board
Nontranslucent board provides ideal support for the patient's arm during IV.

imagiQ2 foot control
Compact multipedal footswitch for discrete placement beneath the table with soft touch buttons and a light operating force.

The Stille imagiQ2 comes with the following configuration:

- 225 Kg / 496 lb patient weight capacity
- Black ergonomic transport handles
- Battery life of up to 2 days in normal use
- 4 swiveling wheels
- Pan handle
- Hand control + Emergency hand control
- Hand control extension cable
- Low attenuation mattress

* The new detachable 20 cm / 8 in side rail is not to be used with a retractor system, catheter trays 1000 mm and 1500 mm

**The system is designed to fit the imagiQ2 and consists of 1 mounting piece that is placed under the mattress and 3 radiation shield curtains. Extra shield curtains, which also can be fitted to the side rail if customer only requires a single curtain and not full whole system

Upgrade features	Description
Mobility enhancement pack	When the table is used for frequent intra-clinic transportation, use the mobility enhancement pack for improved mobility. All wheels are designed to swivel and an additional fifth wheel is included to provide optimal mobility. Ref: 535-1711
Load upgrade pack	Maximize the capabilities of the imagiQ2 with increased patient weight capacity up to 661 lb / 300 kg. Ref: 535-1710
Performance pack	For maximum uptime, choose the performance pack. It includes a high-performance long-term battery pack with up to 1 week of durability. Ref: 535-1712

Stille – Surgical perfection. For life

Stille is one of the oldest medical device companies in the world. We develop, manufacture and sell proprietary high-quality surgical instruments and specialty tables to leading surgeons worldwide. We have done so for more than 170 years.

Stille's offering consists of a strong brand and products renowned for their superior quality. We manage our business in two distinct business areas

Surgical business

A complete offering of handcrafted, forged surgical instruments featuring delicate design, industry-leading durability and a unique feel, which has made Stille a well-known and highly respected supplier by surgeons throughout the world.

Patient Positioning

Offers two main groups of procedure-specific tables for cardiovascular surgery, gynecology, urology and urodynamic examinations. These tables feature a high level of functionality and ergonomics, and appealing aesthetic design.

Stille has been developing medical devices since 1841 and has always been committed in providing the safest and highest performing solutions that live up to our motto: Surgical perfection. For life.

Surgical Perfection. For life.
